Currently pursuing a Master of Space Operations with a specialization in Systems Engineering at Embry-Riddle Aeronautical University, a multidisciplinary operations professional bringing over a decade of experience in SaaS operations, solutions engineering, and stakeholder management into the commercial space sector. Proven ability to design scalable systems, resolve complex operational bottlenecks, and enable cross-functional teams in high-rigor, fast-paced environments. Demonstrated success scaling high-growth startups while operating as a connective bridge between engineering organizations, business units, and executive leadership to align matrixed teams around unified strategic objectives. Expertise spans enterprise program management for complex spaceflight initiatives, mission integration, translating technical capabilities into executable plans, process optimization supporting high launch cadence and cost efficiency, and stakeholder engagement across executives, commercial partners, and regulatory bodies. Actively targeting opportunities in **Program Management**, **Mission Integration**, and **Business Operations** within the **space ecosystem**.

PROFESSIONAL EXPERIENCE

SoftwareOne, Nashville, TN

Feb 2024 – Nov 2024

Enterprise Operations & Solutions Architect

- Drove operational execution and process improvement for global cloud solutions, exceeding quarterly operational quotas by 166%
- Led cross-functional strategic initiatives, collaborating with technical teams and external partners to establish enterprise system integration standards
- Orchestrated programmatic pipeline development and revenue generation using operational excellence principles and product adoption tracking
- Acted as central liaison between technical product teams and enterprise stakeholders to ensure complex licensing met regulatory requirements

Achievers Solutions Inc., Remote

Oct 2022 – Jul 2023

Mid-Market Lifecycle Manager

- Managed full operational lifecycle for mid-market accounts (500+ employees), achieving 300% performance against program targets
- Executed high-volume, precision-driven workflows utilizing advanced CRM platforms for zero-defect execution
- Driven strategic planning, discovery processes, and complex stakeholder relationship management to secure new enterprise agreements

Vault.co, Remote

Oct 2020 – Jan 2022

Senior Manager, Cross-Functional Business Operations & Program Management

- Directed cross-functional enterprise operations across IT, Customer Success, and Revenue teams during rapid organizational scale-up
- Owned end-to-end programmatic lifecycle of major accounts, implementing rigorous pipeline management, generating multi-million-dollar growth
- Architected foundational Salesforce enterprise information system, engineering custom automated workflows for cross-departmental alignment
- Negotiated organization's largest enterprise contract, coordinating stakeholder requirements to achieve 20% expansion in user adoption

Concentrix, Remote

Dec 2018 – Oct 2020

Associate Technical Program Specialist & Business Development Manager

- Served as Subject Matter Expert and Solutions Engineer for cybersecurity and IT networking infrastructure for Fortune 500 clients
- Collaborated with systems engineers and technical architects to design, test, and present technical demonstrations
- Spearheaded process optimization initiatives that successfully revived dormant legacy accounts, exceeding programmatic milestones by 75%
- Earned "Representative of the Quarter" twice among 2,000 employees for continuous operational excellence and strict process adherence

Cornelius Ballroom Dance Co., Planet Ballroom International, Katy, TX

Jan 2010 – Dec 2018

President of Operations & Multi-Unit Owner

- Scaled and directed end-to-end business operations for four franchise locations, exercising total ownership over P&L, facility management, and logistics
- Built scalable operational frameworks supporting multiple concurrent revenue streams and locations, ensuring consistent quality control
- Directed comprehensive personnel management, including the recruitment, training, and cross-functional leadership of highly specialized staff
